If you are reading this you will probably know how good this car is

BBC Top Gear rated it as one of the best and 'true' M Cars ever produced (Aired July 2022)

The short wheelbase, classic BMW rear-wheel drive and 50/50 weight distribution with 335bhp on tap, all ensure the right ingredients are included. Then of course, is the transmission. A purist's 6-speed manual gearbox. The 1M has the basics nailed to a tee. It offers a raw and analogue experience, like that of its legendary sibling; - the E30 M3

Only manufactured between 2011 and 2012 and being limited to just 450 UK examples has of course made it more exclusive than that of any M3 or similar. Small car, big power, incredible handling - BMW 1M Coupe is pretty much driving perfection

OV61 ZSZ was bought new from BMW High Wycombe in January 2012 by legendary singer and car collector, Jay Kay. He used it sparingly and had it regularly maintained at the same dealership until parting with it in 2019 when it was acquired by Bell Sport and Classics. They passed it to the second owner from whom we acquired the car. The service history is as follows, Dec 2011 PDi Sytner High Wycombe, April 2012 Run in Service 1,726m Sytner HW, Nov 2014 Service 4,183m Sytner HW, Nov 2015 Service 4,734m Sytner HW, Feb 2018 5,149m Service Sytner HW, Dec 2019 Service 5,551m Sytner HW, July 2020 Service 5,736m BMW Stevenage, Aug 2021 Service 6,205m Barons BMW Watford, July 2022 6253m BMW Park Lane Brake Fluid Service and Health Check.
